

Prof. Pier Luigi Antignani
Born in Rome, 29.08.1952

- he has from 06/01/2004 at present a full-time assistant-chief angiologist of the San Giovanni Hospital in Rome as director of Operative Unit on no-invasive diagnostic procedures;
- he has been a full-time staff member, from 12/28/1987 through 7/22/1991, of the San Camillo Hospital in Rome as full-time assistant angiologist, and from 7/23/91 to 05/31/2004 as full-time assistant-chief angiologist; from September 1997 as chief of Service of Angiology;
-
- he was a member of the Board of Directors of the Italian Society of Clinical and Experimental Phlebology for the 1993-95 three-year period and as vice-President for the period 2008-2010;
- he was General Secretary (from 1996 to 2001) and President (from 2002 to 2004) of Italian Society for Vascular Investigation:
- he was General Secretary of Italian College of Phlebology (from 2006 to 2008) and member of Executive board for 2009-2011 three-years period;
- he is member of the Board of Directors of Italian Society of Angiology and Vascular Medicine from 2006 to 2008 and as General secretary for 2009-2011 three-years period;
- he has a webmaster of Union Internationale de Phlebologie website and Adjunt secretary of this society from 2009 to 2013;
- he is secretary for European Chapter of International Union of Angiology;
- he has participated in numerous courses and congresses both in Italy and abroad as teacher, speaker, and chairman, thus contributing to the spreading of knowledge in the vascular field;
- he is a member of the Editorial Committee of the magazine "Medicinae Symposia" with the responsibility for coordinating the angiological area;
- he is the coordinator on editorial Committee of "Acta Phlebologica", official journal on Italian College of Phlebology;
- he is Editorial Director and Editor-in-Chief of the scientific Journal "Medical Digest Journal on Vascular Pathology";
- he is member of Editorial Committee of International Angiology;
- he is coordinator of the master on Angiology organized by Italian Society for Angiology and vascular medicine and by Campus Biomedico university in Rome
- he is a teacher of Angiology and Vascular non invasive Diagnostics from 1983 to the present in the annual course of the Italian Society for Vascular Investigation and of the Italian Society of Angiology and Vascular Medicine;
- he is a teacher of Angiology and Vascular non invasive Diagnostics from 1991 to the present in the course for the fellowship in European Medical Angiology of the International Union of Angiology;
- he is teacher of Phlebology and Vascular Medicine in the courses of Faculty of Medicine and Surgery of University of Catanzaro from 2000 to the present;
- he is coordinator for Italy of European Working Group on chronic venous disease classifications;
- he has written numerous reviews of courses, congresses and books on vascular fields;
- he has published numerous works on the various aspects of vascular diseases (more than 400 papers) moreover concerning the acute and chronic phlebological diseases.

Selected more significant publications in phlebology during the last 8 years:

1.Skin necrosis during oral anticoagulant long-term treatment: an atypical side. Antignani PL, Schachter I, Allegra C. Int Angiol. 2009;28(1):82-3.

2. Isolated distal deep vein thrombosis: efficacy and safety of a protocol of treatment. Treatment of Isolated Calf Thrombosis (TICT) Study. Parisi R, Visorà A, Camporese G, Verlato F, Lessiani G, Antignani PL, Palareti G. *Int Angiol.* 2009;28(1):68-72.
3. Recurrent varicose veins following surgical treatment: our experience with five years follow-up. Allegra C, Antignani PL, Carlizza A. *Eur J Vasc Endovasc Surg.* 2007;33(6):751-6.
4. Clinical and hemodynamic significance of corona phlebectatica in chronic venous disorders. Uhl JF, Cornu-Trénard A, Carpentier PH, Widmer MT, Partsch H, Antignani PL. *J Vasc Surg.* 2005;42(6):1163-8.
5. [Who will get leg ulcers, how can recurrence be avoided?] Antignani PL, Becker F, Boissier C, Carpentier P, Cornu-Trénard A, Davinroy M, Debure C, Lance G, Mollard JM, Perrin M, Pistorius MA. *J Mal Vasc.* 2005;30(4 Pt 3):4S5-12.
6. Accreditation process for the performance of ultrasound vascular diagnostics procedures. Antignani PL, Gossetti B, Righi D, Amato A, Annoni F, Impagliatelli M, Pedrini L, Pulli R, Verlato F. *Minerva Cardioangiol.* 2005;53(5):485-506.
7. Guidelines for the diagnosis and therapy of the vein and lymphatic disorders. Agus GB, Allegra C, Antignani PL, Arpaia G, Bianchini G, Bonadeo P, Botta G, Castaldi A, Gasbarro V, Genovese G, Georgiev M, Mancini S, Stillo F. *Int Angiol.* 2005;24(2):107-68. Review.
8. Results of a questionnaire regarding improvement of 'C' in the CEAP classification. Antignani PL, Cornu-Trénard A, Allegra C, Carpentier PH, Partsch H, Uhl JF; European Working Group on Venous Classification under the Auspices of the International Union of Phlebology. *Eur J Vasc Endovasc Surg.* 2004;28(2):177-81.
9. Appraisal of the information content of the C classes of CEAP clinical classification of chronic venous disorders: a multicenter evaluation of 872 patients. Carpentier PH, Cornu-Trénard A, Uhl JF, Partsch H, Antignani PL and European Working Group on the Clinical Characterization of Venous Disorders. *J Vasc Surg.* 2003;37(4):827-33.
10. The "C" of CEAP: suggested definitions and refinements: an International Union of Phlebology conference of experts. Allegra C, Antignani PL, Bergan JJ, Carpentier PH, Coleridge-Smith P, Cornu-Trénard A, Eklof B, Partsch H, Rabe E, Uhl JF, Widmer MT; International Union of Phlebology Working Group. *J Vasc Surg.* 2003;37(1):129-31.
11. Classification of chronic venous insufficiency: a review. Antignani PL. *Angiology.* 2001;52(1):17-26. Review.
